## HOW I BECAME A DJ

FREDERIK ABAS raised in Haarlem, close to Amsterdam, in the Netherlands. Frederik's big passion for music began in 1991 when he was 16 and worked for a big drive-in show company as a light and sound technician. Just after, in 1993, Frederik started playing music at student, wedding and college parties.

## FIRST EVENT

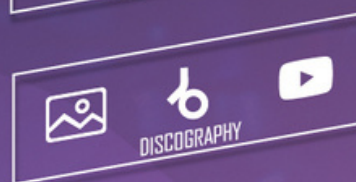

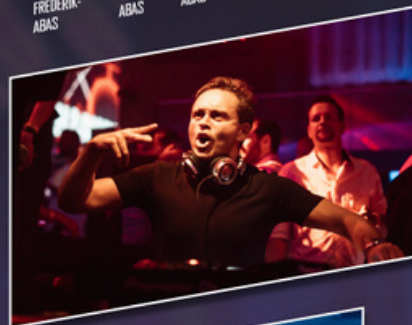

Frederik's first serious bigger events where he started performing, took place at the Beverwijk bazaar in 1994 for the just founded organization "Loveland". Loveland has been well known and very successful in the Netherlands since 1994. Since 2007 Frederik has played at Loveland Festival.

## MY INSPIRATION

The Dutch house founders DJ Marcello and DJ Dimitri Kneppers were Frederik's sources of inspiration for playing music. Frederik plays club house and tech house music. Frederik's tunes are considered as energetic and danceable appealing to a large group of people without losing it's underground identity.
