## ABOUT DAVE BAKER

Toolroom Academy graduate Dave Baker is a house music DJ born and raised in London but currently calls Sydney home. Having played at various international venues blending mainstream house with tech house and other sub-genres of EDM, Dave is also known for playing techno, jackin' house, and a more chilled daytime / sunset vibe with organic, afro and melodic house.

Dave is the DJ, presenter and producer of the Hot House Hours podcast, a show attracting up to **45k listeners a week** playing the very latest house music, and monthly specials covering the above genres. The podcast is also repackaged and distributed as a syndicated radio show across more than **25 countries and 75+ radio stations** with a global reach of more than 1m listeners in regions such as Ibiza, UK, US, Australia and Scandinavia.

Through his partnership with Techno Live Sets, Dave also shares the same platform as techno heavyweights Jay Lumen, Adam Beyer, and Charlotte de Witte, earning widespread praise for his progressive style of deep, dark and thumping techno mixes.

Dave is also an emerging house music producer and has worked with well known artists including **Ben Remember** (Toolroom), **Tim Green** (All Day I Dream), **Veerus** (Drumcode) and **Aleesia** (Spinnin' Records).

**It would be a pleasure to work with more radio stations and spread the love of house music!**
