„INTERNATIONAL CLUB AFFAIR“
YOUR RADIO SHOW AROUND THE WORLD

New International Radio Show with Marc Maris and CJ Stone

Two DJs, two shows, one shared format – a new episode every week.

With International Club Affair (ICA), a new international radio format dedicated to Dance Music and electronic club culture is launching. Behind the project are internationally experienced DJs and producers Marc Maris and CJ Stone.

A new episode of ***International Club Affair*** is released every week, alternating between two individual shows: ICA – ***Club Session*** hosted by Marc Maris & ICA – ***Electronic Pleasure*** hosted by CJ Stone. International Club Affair brings together two distinct musical styles under one name, creating a regular radio format for Dance and Electronic Music fans and radio stations around the world.

Marc Maris – From International Clubs to Radio

Marc Maris looks back on more than 25 years of experience as a DJ, producer and radio host. He has been active internationally in the Dance Music scene since the early 2000s. In the summer of 2002, his track “Lost in Love” reached No. 2 in the Dance Charts in the UK and the USA. He also gained several years of experience as a radio host at Radio Galaxy.

His international club history is closely connected to Ibiza. Since 1999, Marc Maris has regularly performed at clubs such as Space, Amnesia and El Divino. Together with CJ Stone, he released the club track “Carry On” under the name Space Deejayz in 2003. Marc Maris was also featured on Ministry of Sound’s “Clubbers Guide to Ibiza 2002.”

With ICA – Club Session hosted by Marc Maris, he brings this experience into a modern radio format. The show focuses on current House and Dance tracks, new productions and selected club classics – combining contemporary sounds with more than two decades of experience in Dance Music.

CJ Stone – Electronic Pleasure

With ICA – Electronic Pleasure hosted by CJ Stone, one of the established names in the German and international Dance Music scene takes over every other week.

CJ Stone has been active as a DJ, producer and remixer since the 1990s. His well-known productions include “Infinity,” “Shining Star,” “Into the Sea” and “The Sun (Goes Down).” As a remixer, he has also worked on productions for artists including Tiësto, DJ Sammy, Culture Beat, Sylver, Scooter and SNAP!

Electronic Pleasure represents energetic electronic Dance Music: current club productions meet Dance, Trance, House and selected classics. The format is specifically designed for an international radio audience.

Marc Maris and CJ Stone share a long musical history. Back in 2003, they released music together as Space Deejayz. In recent years, together with Deejay Family, they have also produced tracks including “Faded,” “Ocean in your Eyes” and “Supernova,” which achieved radio airplay and international chart positions.

With International Club Affair, Marc Maris and CJ Stone are now continuing this musical connection on the radio.

While Club Session presents the musical signature of Marc Maris, Electronic Pleasure represents the electronic sound of CJ Stone. Both shows maintain their own identity while together forming the weekly International Club Affair radio format.

Music: House · Dance Music · Electronic · House · Trance · Club Music
Format: Weekly international radio show
