

The Global Dance Radio Chart Show is your essential guide to the world's hottest dance tracks, played on the radio. We spotlight the top 20 entries from the WARM Global Dance Radio Chart every week.

Facts about WARM Global Dance Radio Chart:

- Published every Friday as a Top 100, launched in November 2024
- The Dance chart is based on 24/7 monitoring of over 100 of the most impactful dance music radios from 30 countries worldwide.
- Calculated on weekly (Friday-Thursday) airplay count across the included stations.

WHAT IS WARM?

WARM provides data on radio airplays worldwide, delivered to your user-friendly, mobile-ready dashboard in real-time.

In addition to public broadcasting radio stations, the service monitors over 25.000 internet, community, cultural, and local stations worldwide. The data helps to make radio promotion and campaign control even better. Reporting tools provide labels, artists, agencies, publishers, and distributors with relevant information to push releases and adjust campaigns, as well as provide all the pertinent facts to claim royalties due on radio plays. With a detailed data filtering system, users see all their relevant results at a glance.
